Palestine + 100 poses a question to twelve Palestinian writers: what might your country look like in the year 2048 a century after the tragedies and trauma of what has come to be called the Nakba How might this event which, in 1948, saw the expulsion of over 700,000 Palestinian Arabs from their homes reach across a century of occupation, oppression, and political isolation, to shape the country and its people Will a lasting peace finally have been reached  
**W:300g**

Denied for almost six decades, had it happened today it could only have been called "ethnic cleansing". Decisively debunking the myth that the Palestinian population left of their own accord in the course of this war.

Discover ALL about the history of iconic Palestinian symbols like tatreez embroidery, or the inspiration behind Mahmoud Darwish's poetry. As you turn every page, you'll find yourself lost in the world of Dabke (the folk dance of Palestine) and amazed by its famous old cities; you'll try traditional food like knafeh, explore the different religions, and find out much more.

Beginning in the final days of the Ottoman Empire, Khalidi reveals nascent Palestinian nationalism and the broad recognition by the early Zionists of the colonial nature of their project. These ideas and their echoes defend Nakba - the Palestinian term for the establishment of the state of Israel - the cession of the West Bank and Gaza to Jordan and Egypt, the Six Day War and the occupation  
**W:300g**

In 1948, 200,000 Palestinians sought refuge in Gaza, a marginal area neither Israel nor Egypt wanted. Palestinian nationalism grew there, and Gaza has since found itself at the heart of Palestinian history. It is in Gaza that the fedayeen movement arose from the ruins of Arab nationalism. It is in Gaza that the 1967 Israeli occupation was repeatedly challenged, until the outbreak of the 1987 intifada. And it is in Gaza, in 2007, that the dream of Palestinian statehood appeared to have been shattered by the split between Fatah and Hamas
